

With 35 years of experience in industries from health care to higher education, we offer work-life services that:

- complement your counseling model;
- bolster your brand as a comprehensive EAP;
- reinforce your reputation for deep subject matter expertise;
- please your clients with thoughtful and reliable follow through; and
- seamlessly integrate with your 24 hour EAP operation.

We are KGA. More Human. More Resources.

WHAT IS AVAILABLE?

Select from the following work-life services to complement your program.

- **Child Care Resources** — Research and referral for all types of child care needs
- **Elder/Adult Care Resources** — Research and referral to meet the needs of elders and other adults
- **Legal Assistance** — Legal consultation and/or referral for most legal issues
- **Financial Consultation** — Help with money management for most financial/tax concerns
- **Nutrition Consultation** — Telephone consultation with nutritionists and dietician
- **Convenience Services** — Research to help locate services to balance work and personal life
- **Career Consultation** — Telephone consultation and referral for interest testing, career exploration and resume review

What Happens When My Clients Call?

A Work-Life specialist will be available to speak with clients to evaluate their needs and suggest a plan of action. All that they need to do is make the first call.

All phone or electronic conversations with KGA's staff are confidential. It is our goal to make your client feel supported, understood, and secure.

What If My Client Needs More Than The Program Offers?

Sometimes people need more support than the Work-Life Program provides. If the KGA specialist uncovers the need for in-depth counseling or other mental health services, they will warm transfer the caller to your counseling team. Our staff will work with your counselors to provide your client organizations with the best integrated EAP and work-life experience possible.
